Subject and Author Index to Volume 28

Abdominal surgery
  asymmetric dimethylarginine levels after, 382
Abstracts, from Nutrition Week 2004, S1 (Jan–Feb)
Adults, on extracorporeal membrane oxygenation, early enteral feeding in, 295
Aging
  home enteral nutrition and, 92
  nutrition and immunity in, 348
Air displacement plethysmography, body composition in ESRD and, 13
Amino acids
  arginine-free diet and short bowel syndrome alterations in, 315
  metabolism measurement in humans, 38
Amyotrophic lateral sclerosis, energy expenditure in, 442
Antioxidants, plasma, TPN for ICU patients and, 142
Antroduodenal motility, enteral nutrition and, 169
Arginine
  citrulline preservation of CD3ζ chain and, 423
  in critically ill patients, 192 (Letter)
  immunonutrition and enteral nutrition formulas with, 278 (Letter)
  infusion during ischemia, 224
  lymphoid tissue and PN enriched with, 246
  safety of HMB, glutamine and, 65
  short bowel syndrome alterations and, 315
A.S.P.E.N. 2003 Research Workshop, tracers to measure nutrient metabolism in humans, 38
Aspiration, pump-assisted enteral nutrition and prevention of, 180
Azygos vein, long-term PN in adolescent with cystic fibrosis and, 269

Bacterial translocation, enteral nutrition of monoacetoacetin for burned rats with, 301
Bioelectrical impedance, body composition in end-stage renal disease and, 13
Blue food dye, 62 (Editorial)
Body composition
  in end-stage renal disease, 13
  fan-beam DXA in children, 328
Bombesin, TPN deleterious effect and, 431
Bone mineral density, home parenteral nutrition and, 289
Bowel necrosis, water in jejunal feeding and, 27
Brazil, nutrition support in, 184
Brix value, gastric residual volume in nasogastric tube feeding and, 105
Burns
  enteral nutrition of monoacetoacetin and bacterial translocation from, 301
  supplemental enteral glutamine and, 123 (Letter)
Butyrate, TPN supplementation with, 210

Cancer cachexia, ubiquitin-proteasome proteolysis pathway and, 272
Carbohydrates, metabolism measurement in humans, 38
Cardiovascular medications, enteral nutrition for critically ill children and, 334
Catheters, central venous, positive-pressure valve and occlusion of, 113, 130
CD3ζ chain, citrulline and preservation of, 423
Children
  enteral nutrition and cardiovascular medications for critically ill, 334
  fan-beam DXA studies in, 328
  3–0 methylglucose uptake in, 158
Cholesterol oxidation products, IV lipid emulsions and, 342
Citrulline, CD3ζ chain preservation and, 423
Clinical practice, energy expenditure calculation for, 282 (Editorial)
Clinical trials, of supplemental enteral glutamine effects with burns, 123 (Letter)
Clonidine, intestinal fluid losses in short bowel syndrome and, 265
Coagulation abnormalities with lipid-based PN, 30
C-reactive protein, morbid obesity and, 410
Critically ill patients
  endoscopic and fluoroscopic feeding tube placement in, 154
  enteral nutrition and cardiovascular medications for children, 334
  immunonutrition in, 192 (Letter)
  on nutrition support, predicting hypocalcemia in, 133
  resting metabolic rate prediction methods for, 259
Cystic fibrosis, long-term PN in adolescent with, 269
Cytokines, PN and release of, 163

Dexamethasone, lactation and, 355
Dextrose, glucose metabolism and IV administration during surgery of, 149
Diarrhea, prebiotic prefeeding in piglets fed lactulose and, 22
Digital energy X-ray radiogrammetry
  body composition in ESRD and, 13
Dimethylarginine, asymmetric, hepatic failure after liver resection and, 382
Disaccharide malabsorption model, prefeeding inulin effects on, 22
Drug trials, 453 (Editorial)
Dual X-ray absorptiometry (DXA), fan-beam studies in children, 328

Education, for neonatal PN practice, 176
Eicosapentaenoic acid (EPA), cell death in HL-60 cells and, 308
Endoscopy, feeding tube placement in critically ill patients and, 154
Endotoxins, PN and release of, 163
End-stage renal disease (ESRD), body composition in, 13
Energy expenditure
  amyotrophic lateral sclerosis and, 442
  calculation of, 282 (Editorial)
Enteral nutrition
  antroduodenal motility and, 169
  aspiration prevention with pump-assisted, 180
  blue food dye in, 62 (Editorial)
  cardiovascular medications for critically ill children and, 334
  evaluation of hyperkalemia in, 124 (Editorial)
  extracorporeal membrane oxygenation in adults and early, 295
  immunonutrition and formulas for, 278 (Letter)
  magnetic feeding tubes for, 119
  needle catheter jejunostomy for surgically treated severe acute pancreatitis and, 324
  rhGH effects on short bowel syndrome and, 377
  sodium polystyrene sulfonate in, 76
Essential fatty acids, long-chain triglyceride replacement with MCT/LCT emulsion and, 7
Ethylvinyl-acetate bags, PN oxidation in multilayered bags *versus*, 85
Extracorporeal membrane oxygenation, early enteral feedings in adults on, 295

Fast food restaurants, in hospitals, 128 (Editorial)
ω-3 Fatty acids, macrophage proinflammatory cytokine inflammation modulation and, 232
Feeding tubes
  endoscopic and fluoroscopic placement of, 154
  external magnetic guidance and placement of nasoenteral, 119
Fiber supplementation, antroduodenal motility in enteral nutrition and, 169
Fluoroscopy, feeding tube placement in critically ill patients and, 154

Gastric juice, detection of small-volume aspiration of, 79
Gastric residual volume, Brix value in nasogastric tube feeding and, 105
Glucagon-like peptide 2
  gut adaptation to resection and, 399
  lactation and, 355
Glucose
  IV dextrose during surgery and metabolism of, 149
  in parenteral nutrition, 447
  transport system, 364
Glucose transporter facilitators (GLUT), 364
Glutamine
  safety of HMB, arginine and, 65
  severe burns and, 123 (Letter)
P-Glycoprotein, TPN administration and, 1, 63 (Editorial)
Growth hormone, gut adaptation to resection and, 399
Growth hormone, recombinant human, enteral nutrition effects on short bowel syndrome and, 377
Gut-associated lymphoid tissue mass, bombesin reduction in TPN deleterious effect on, 431

Healthcare, older adults receiving home enteral nutrition and, 92
HL-60 cells, cell death in EPA/GLA-treated, 308

Growth hormone, gut adaptation to resection and, 399
Growth hormone, recombinant human, enteral nutrition effects on short bowel syndrome and, 377
Gut-associated lymphoid tissue mass, bombesin reduction in TPN deleterious effect on, 431

Healthcare, older adults receiving home enteral nutrition and, 92
HL-60 cells, cell death in EPA/GLA-treated, 308

Home enteral nutrition, older adults receiving, 92
Home parenteral nutrition
  longitudinal bone mineral density changes with, 289
  urinary oxalate excretion and vitamin C dose in, 435
Hospitals
  fast food restaurants in, 128 (Editorial)
  multidisciplinary TPN team in, 251
  nutritional depletion and length of stay in, 99
  prealbumin and nutrition screening in, 281 (Letter)
  studies on optimal bed capacity of, 195 (Editorial)
β-Hydroxy-β-methylbutyrate, safety of arginine, glutamine and, 65
Hyperglycemia, glucose in parenteral nutrition and, 447
Hyperkalemia, specialized nutrition support and, 76, 124 (Editorial)
Hypocalcemia, prediction in critically ill patients on nutrition support, 133

Immune function, malnutrition, pressure ulcers and, 416
Immunonutrition
  in critically ill patients, 192 (Letter)
  for elderly people, 348
  enteral nutrition formulas and, 278 (Letter)
Infants, newborn, cholesterol oxidation in IV lipid emulsions and, 342
Infections
  glucose in parenteral nutrition and, 447
  ubiquitin-proteasome proteolysis pathway and, 272
Inflammation
  proteasome and cellular response to, 284 (Editorial)
  ω-3 lipids and rofecoxib modulation of, 232
Insulin, carrier solution and bioavailability of, 439
Interleukin-6, morbid obesity and, 410
Intravenous lipid emulsions, cholesterol oxidation in, 342
Inulin, piglet disaccharide malabsorption model and, 22
Ischemia, l-arginine infusion during, 224

Jejunal feeding, bowel necrosis from water in, 27
Jejunostomy, needle catheter, enteral nutrition for surgically treated severe acute pancreatitis and, 324

Keratinocyte growth factor, gut adaptation to resection and, 399

Lactation, dexamethasone and GLP-2 effects on, 355
Lactose-supplemented formula, effects on piglet disaccharide malabsorption model, 22
Length of stay
  nutritional depletion and, 99
  studies on optimal hospital bed capacity and, 195 (Editorial)
γ-Linoleic acid (GLA), cell death in HL-60 cells and, 308
Lipogenesis, glucose in parenteral nutrition and, 447
Liver, TPN for ICU patients and, 142
Liver disease, parenteral nutrition-associated, 1, 63 (Editorial)
Liver failure, asymmetric dimethylarginine after liver resection and, 382
Lymphoid tissue, gut-associated, l-arginine-enriched PN and, 246

Macrophage proinflammatory cytokines, ω-3 lipids and rofecoxib modulation of, 232
Malnutrition. *See also* Starvation
  amyotrophic lateral sclerosis and, 442
  immune function, pressure ulcers and, 416
  in utero, wound healing of newborn rats and, 241
3–0 Methylglucose uptake, as nutrient absorption and bowel length marker in children, 158
Monoacetoacetin, enteral nutrition for burned rats with bacterial translocation and, 301
Multilayered bags, PN oxidation in ethylvinyl-acetate bags *versus*, 85
Multiple organ failure, l-arginine infusion during ischemia and, 224
